EDUCATION

Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science and Technology B. Tech - Computer Science Engineering (Cyber Security) CGPA: 7.56	Chennai, India June 2021 – May 2025
Sri Sakthi Supreme Ideal Vikas Matriculation Higher Secondary School Higher Secondary (12th) Percentage: 73.4%	Erode, India June 2020 - May 2021
Sri Sakthi Supreme Ideal Vikas Matriculation Higher Secondary School Secondary (10th) Percentage: 71%	Erode, India June 2018 - April 2019

SKILLS SUMMARY

- **Programming:** Java
- **Backend:** Spring Boot, REST APIs
- **Database:** MySQL, PostgreSQL, SQL
- **Frontend:** HTML, CSS, JavaScript, React, Tailwind CSS
- **Tools:** Git, Postman, VS Code
- **Core Concepts:** OOP, DBMS, OS, Computer Networks

EXPERIENCE

Freelance Frontend Developer – E-Commerce Website	Feb 2026 – Mar 2026
• Built the frontend of a complete e-commerce website using React and Tailwind CSS. • Developed core features such as product listing, product details, cart, wishlist, and checkout flow. • Used Redux Toolkit to manage application state including user sessions, cart updates, and orders. • Integrated frontend with backend APIs to handle real-time data and user interactions. • Focused on clean UI, reusable components, and ensuring responsiveness across devices. • Delivered the project to a client within the expected timeline.	

PROJECTS

Student Management System (Full Stack – Spring Boot)	Jan 2026 – Feb 2026
• Built a role-based system where admins and students have different access and features. • Implemented secure authentication using JWT and Spring Security with BCrypt encryption. • Developed REST APIs for managing student data and admin operations. • Used Spring Data JPA and Hibernate for database interaction with a clean layered structure. • Added validation, pagination, and proper error handling for reliability.	
Graphoria – Startup Design Studio Website	Feb 2026 – Mar 2026
• Designed and developed a modern, responsive UI using React, TypeScript, and Tailwind CSS. • Contributed to backend development using Spring Boot for handling contact form data. • Integrated PostgreSQL using Spring Data JPA for storing and retrieving data. • Implemented PDF generation for managing and exporting contact form details. • Worked on structuring the application using service, repository, and DTO layers.	

CERTIFICATES

Master Program in Full Stack – FITA	Jan 2026
• Completed a 4-month full stack training program covering both frontend and backend development. • Built applications using Java, Spring Boot, HTML, CSS, JavaScript, and React. • Gained hands-on experience in REST API development, database design, and real-world project work.
